

Welcome Letter

Clinical Director Birth Suite and Inpatient Obstetrics

Eastern Health

Dear Colleague,

Thank you for your interest in the position of Clinical Director Birth Suite and Inpatient Obstetrics at Eastern Health, which will play a pivotal role in ensuring excellence in clinical care, education, and research. The successful candidate will lead the Inpatient Obstetric services at Eastern Health with a focus on patient-centred care, quality, and collaboration.

As part of a newly implemented flat structure in our Women's and Children's service, Clinical Director Birth Suite and Inpatient Obstetrics will be responsible for leading the delivery of inpatient obstetric services at Eastern Health, ensuring the highest quality of healthcare, evidence-based care, and effective clinical supervision. You will also work on developing and maintaining effective relationships and collaborations within Eastern Health and with external stakeholders.

Our service assists with 5000 births per year, which are relatively equally spread across our Box Hill and Angliss Hospital locations in the Eastern Suburbs of Melbourne. We have approximately 70 trained specialists in Obstetrics and Gynaecology working across our Gynaecology, Ambulatory Obstetrics, and Inpatient Obstetrics services.

The Clinical Director will oversee the provision of clinical services in the Inpatient Obstetrics service, including effective evidence-based care, clinical supervision, and staff management. You will also take on a leadership role, ensuring the service's performance, efficiency, and compliance with policies. Quality and clinical review activities, education, and research will be central to the role. You will promote patient-centred care and support quality improvement initiatives. Performance management, operational efficiency, and harmonious relationships with key stakeholders are also key responsibilities.

In the first 12 months, the Director Birth Suite and Inpatient Obstetrics will conduct a senior medical staffing review, improve Access KPIs, enhance recruitment and retention, establish standardized policies and guidelines, foster harmonious relationships, manage resources responsibly, promote quality care, and contribute to education and training.

This role offers a unique opportunity to make a significant impact on inpatient obstetrics services at Eastern Health, ensuring the delivery of high-quality care and the continuous improvement of healthcare practices. We look forward to speaking with a diverse field of dedicated and experienced professionals with a passion for excellence in inpatient obstetrics.
